16. Security and Privacy in Internet of Things

Requirements

1. Report

- A report is required in a survey paper format of current research and state of the art in your topic area, plus an in-depth analysis of a specific subject/subtopic in the field.
- Technically oriented
- Based on at least 3 recent research papers in your topic area (include them in your report) as well as articles, websites, (reference them in your report).

- Minimum of **six** pages of content (original text, not from the papers)
- 12 point font, single line spacing
- 1 inch margins (top, bottom, left, right)

2. 20 minutes Class presentation (Use PowerPoint slides and submit a printout with the report)

3. A practical implementation/simulation in your selected topic will be considered as bonus. Guidance will be provided on what is required on your side.

Topic selection procedure

- Send me an email with the group members' names (maximum of 2) and topic (from the suggested topics list, or suggest your own) by **Thursday May 2nd 2013**.
- Topic selection will be on a first-come first-serve basis.
- You will receive an email acknowledging the formation of the group and the approval of the topic.

Presentation Schedule

- To be announced
